Advanced Growing Power

EXPRESSWAY 650

Perfect for your entire grow.

A super light, high performance, full spectrum LED grow light

~Available in 330 watt (4 bars) and 650 watt (8 bars).

~Combining 3000 Kelvin, 6500 Kelvin and high performance 660nm RED Osram and Samsung LEDs.

~Building on the efficiency and flexibility of today's best LEDs, the EXPRESSWAY delivers the most light in the spectrum precisely where plants need it at a fraction of the energy demands of previous grow lights.

~The LED array delivers a powerful full-spectrum light for plants, and a pleasing light for growers.

~Growers can plug and grow full-spectrum out-of-the-box with the default Spectramax setting.

~Optional 0-10v control can give growers access to remote dimming or the dimming knob on each fixture for local control allowing growers the ability to fine tune the PPFD for each type of plant at each stage.

Precisely What You're Looking For...

Our Story

When the lighting industry
began rapidly advancing
in recent years,
PreciseLED
rose to the challenge.

Watch the PreciseLED
NEW Downlight Video

Light manufacturing
is no longer a
simple process
of just functionality.

Instead this world
has become
a dynamic
and high-tech field
that alters various aspects
of our lives
to the way we live
almost every day.

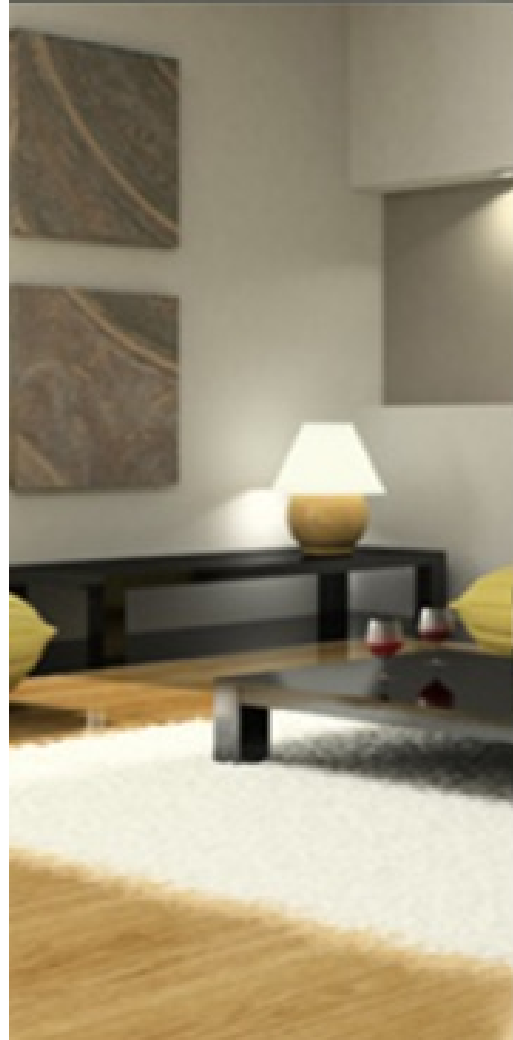

Knowledge is Key

At PreciseLED
we strive towards
the pinnacle
of quality and standards
that has become
a major philosophy
of this company.

That's why we make it
simple
for you
to understand
the best products
for your needs.

Precision through Innovation

As our name implies
we use
the latest technology,
along with
our laser-sharp
precision
in order to create
those
everyday products
of the
highest excellence
and will continue

to do so
for generations
to come.

Employee Spotlight

CARRIE HOPKINS

Carrie Hopkins grew up in Creve Coeur, Missouri and went to Parkway North High School. A few years in business school prepared her for office jobs with various companies in the St. Louis area. That was until her husband received a military transfer to Texas. There she lived and worked for 2 years before coming to work for Meglio in 2012.

Carrie now lives in Piggott, Arkansas and was working for Meglio from her home office well before COVID 19 made it a common thing.

As an Inside Sales Associate for Meglio, she is a product specialist for ILSCO, Arlington, Atlas, Plymouth, and the ECM lines.

Since her husband is now stationed at Fort Campbell, Kentucky, when she's not working for Meglio, she's a lone cowgirl, driving a tractor, delivering hay and feeding around 50 head of hungry cows. If she ever won the lottery, the first thing she would do is hire a cowhand. Then after taking care of her family, the next thing on her lottery list would be to travel to exotic places she's never been.

Ranching doesn't leave much time for hobbies, but one thing Carrie really likes is photography. She purchased a quality camera some years back and would like to use it more than she gets a chance to.

Carrie is a Rock 'n Roll fan with bands like The Eagles and ZZ Top on her playlist. She has fond memories of attending Super Jam concerts back in the day.

If you've ever emailed Carrie then you understand how she got her nickname, Chopkins, which she kind of likes. Her favorite season is the

summertime, when it's warm and the grass is green, when you don't need a coat and can go barefoot if you want.

As a girl growing up, she liked collecting stamps. Nowadays she collects grandchildren and is all the way up to four; three boys and a girl. Visiting with them is one of her most favorite things to do and she's looking forward to an upcoming trip to Florida for a visit soon.

**Tell us about a Meglio employee that went above and beyond & be entered to win one of five \$25 Visa Giftcards.
