WE ALL KNOW, SHIFT HAPPENS

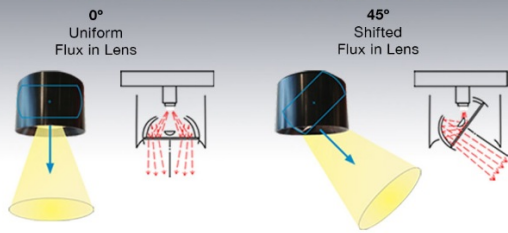

GYROSHIFT

A different way to downlight, CSL's patented **GyroShift™** technology is a unique system that allows you to easily adjust a downlight with no loss of light on the target. CSL engineers designed the innovative bezel-and-ball system so that any lighting adjustment can be made while installed with just a twist of the bezel—no tools needed. From 0° to 45° angles with infinite rotation, **GyroShift™** optics are designed to provide a uniformly bright light and round beam at any angle. In addition, the **GyroShift™** optics are field-changeable and available in 10°, 30°, and 50°.

How *Shift* Happens™

OFF TO THE RACES WITH PISTA

PISTA

Breaking open the thinking box is what led us to **Pista**. Welcome to Modular's 48V magnetic track rail system which shows how sleek aesthetics can be both playful and functional. Sounds exciting?

Infinite Geometry

At first glance, you notice **Pista**'s surprisingly slender design. But there is so much more to **Pista** than its looks. **Pista** is the Italian word for racetrack. Even though these tracks aren't as curvy, they have the same potential for endless configurations. Thanks to a 180° connection module, the track rail can run continuously for quite a while.

Employee Spotlight

JASON KYLE

Jason is a St. Louis native and a graduate of Lindbergh High School where he played varsity baseball, soccer and football. He attended Missouri State University briefly before leaving to work full-time for AT&T for 6 years where he laid the foundation for an exceptional selling career. After over 10 years as a top producer in the finance industry, he was instrumental in the start-up of an ESCO specializing in LED lighting where early on he saw the potential growth in the LED market. He has since worked over 8 years in the lighting industry to become one of the area's leading LED lighting experts. He joined Meglio in October of 2018 where his specialty is major project

development. Jason works tirelessly to be on the cutting edge of LED technology advancements.

In his off-time he enjoys being daddy to his two daughters, Lily and Abby and spending time with their mother Angela. Jason is an avid deer hunter and trout fisherman. He tries to get down to his country place near Montauk State Park as often as possible throughout the year. Although his baseball playing days are long past, he still plays on a softball team every year and probably will until they carry him off the field.

Tell us about a Meglio employee that went above and beyond & be entered to win one of five \$25 Visa Giftcards.
