**NEW FROM BETACALCO**

# SOFT SQ™

The optically engineered diffuser throws the light downwards exactly where it is required, whilst creating a subtle indirect glow on the ceiling. Ideally suited for atriums, lobbies, boardrooms and reception areas.

# The New Action Hero

ModiFly

ModiFly

ModiFly

It's time to liberate with light...

Lighting designs that evoke a sense of wonder...

*Watch ModiFly Video - Download  
Brochure*

ModiFly Suspended is the new action hero for lighting design.

This next generation lighting innovation has it all: contemporary form, infinite design

freedom, and undisputed performance. Simple, yet sophisticated, ModiFly has a style that lends itself perfectly for a variety of spaces including open offices, education, and retail environments, where visual comfort and design continuity are essential.

- Fully articulating Bi-Link, Tri-Link & Quad-Link joints give you unlimited design options
- Slim 4.5"x2.5" housing available to mount in grids, drywall, or open ceilings
- Vertical Light Guide technology produces a controlled batwing distribution with 72% downlight and up to 16ft o.c. spacing
- Select configurations contribute toward satisfying features L04 and L07 under the WELL Building Standard

Available with wall mount complement.

## The End of Boring Lighting

## Employee Spotlight

### JONATHAN LEONE

Jonathan Leone is Kansas City born and raised, where he graduated from Rockhurst High School. Although he played football for a couple of years and was on the track team for four, he received a state letter, and the top rating, for his accomplishments in choir which included participation in five different groups. His music talents include guitar, ukulele and piano which he began playing when he was only four years old. Music has always been a big part of his life. He also belonged to a dance group that traveled

and performed traditional Filipino dance. Somehow, he also managed to find time to earn the Boy Scouts of America's highest honor, the rank of Eagle Scout. He left Kansas City in 2009 to attend Creighton University, in Omaha, Nebraska, where he pursued a major in Business Intelligence and Analytics. Through college he enjoyed working as a DJ, and as a server at a local wine bar. He is very interested in movies and filmmaking. Some of his favorites are Stanley Kubrick, Alfred Hitchcock, Paul Thomas Anderson, and Wes Anderson. When he is not watching the director's cut of a favorite film, he does confess to being an avid video gamer. He likes to spend time with his 9 year old daughter, Jocelyn, and admits he is guilty of teaching her the finer points of gaming acumen. Although his favorite way to spend his free time is just being a dad, he also loves camping and the outdoors, and enjoys visiting his brother in Denver. About four and half years ago Jonathan started at Meglio. Then a couple of years ago, being the self-proclaimed computer nut he is, he taught himself the art of creating computer aided lighting layouts. It is his job to make sure all installations are up to code and follow IES standards. We are now proud to call him one of our better accomplished Lighting Applications Specialists.

**Tell us about a Meglio employee that went above and beyond & be entered to win one of five \$25 Visa Giftcards.
